welcome stride in making the region more investor and business friendly. Such a measure is part of the Government of Telangana's strategy to encourage investments in the state by lending more flexibility to archaic labour laws thereby increasing the ease of doing business. With the Notification in place, global companies will be able to fine tune their work hours as per global business requirements, align with specific operating hours unique to IT/ITes Establishments (e.g. being on-call, shifts etc.). The Notification is also in alignment with the prior notification (applicable to all establishments in Telangana) on conditions for employing women on night shifts. This is a welcome measure and anticipated relief in allowing flexibility in operations to the IT/ITes Establishments in the Indian state of Telangana, most of which have their parent offices outside India.
